

Floating Fairy Garden

Supply List:

- Foam Ring With At Least 2 inches Of Depth.
- Hot Glue Gun
- Hot Glue
- Moss Sheet
- Assorted Preserved Moss
- Faux Flowers/Plants
- Fairy & Door
- Firefly Lights

Directions:

1. Cut Moss Sheet into panels to fit the circumference of your ring. (My panels measured 11x21inches)
2. Lay your moss with the backing facing up, begin piping glue down the length of the panel (Be generous)
3. Roll your ring down the fresh strip of glue, press firmly to secure.
4. Cut the overhanging moss into strips that meet the rim of the ring.
5. Wrap these strips through the center of the ring, and secure it to the back of the ring with a thick line of glue. (Hold in place until glue cools)
6. Keep doing this all the way around the ring, do not force the strips to be glued in order, glue them down in the way they naturally overlap.
7. Attach chicken wire to the back by folding the sharp edges into the foam, secure with a thick line of
