

Wall Mitten

Supply List:

Cuddle Quarter or 12"x 18" wool felt square
for mitten

Fabric for lining (optional)

Fur for trim (2"x11", optional)

Polyfil stuffing

Christmas sprays or branches to fill stocking

Embellishments for decorating

Glue

thread

Directions:

1. Using template cut (2) for the outside of the mitten. If using fabric we cut two from another fabric for the lining to give the mitten a little body. Using 1/4" seam allowance sew outer mitten pieces right sides together and turn right side out. If using a lining sew the same way and then insert into the mitten wrong sides together. Fold outer mitten fabric into the lining about 1/2" and glue in place.
2. Loosely stuff a small amount of polyfil into the mitten and thumb for shape.
3. Place your sprays or branches in mitten and glue in place. Attach a hanging loop to back of mitten.
4. If making a felt mitten try a decorative stitch using embroidery floss to sew the pieces together.

Cut (2) mitten

Cut (2) lining (optional)

for trim 2" x 11"
